Value: As a rough estimate of this coins value you can assume this coin in average condition will be valued at somewhere around \$18, while one in mint state (MS) condition could bring \$7,000 at auction if certified. This price does not reference any standard coin grading scale. So when we say average, we mean worn as would be expected from a coin in this age, and mint state meaning MS+ grade and certified*.

Extra Info: All Barber Half Dollars were minted as 90% silver and are worth a bit just due to melt value, but dont make a mistake and sell one of these for melt. They are worth way more for their numismatic properties.
