

Type: [Mercury Dime](#)

Year: [1928](#)

Mint Mark: S

Value: As a rough estimate of this coins value you can assume this coin in average condition will be valued at somewhere around \$3, while one in mint state (MS) condition could bring \$1,800 at auction if certified. This price does not reference any standard coin grading scale. So when we say average, we mean worn as would be expected from a coin in this age, and mint state meaning MS+ grade and certified*.

Face Value: 0.10 USD

Total Produced: 7,400,000 **

Silver Content: 90%

Extra Info: This 1928 90% silver mercury has both a large and a small mint mark like a few of the other dimes issued within a plus or minus 15 year time frame. Many coin booklets have a place for both. The San Francisco mint is of course in Sand Francisco :) These and all dimes from 1928 are silver. When buying or selling Mercury Dimes full bands are key.
