Value: As a rough estimate of this coins value you can assume this coin in average condition will be valued at somewhere around \$23, while one in mint state (MS) condition could bring \$934 at auction if certified. This price does not reference any standard coin grading scale. So when we say average, we mean worn as would be expected from a coin in this age, and mint state meaning MS+ grade and certified*.

Extra Info: This is the first time since 1878 that coins were minted in San Francisco, despite this fact these coins are worth about as much as the same coin with no mint mark. Probably because of the large volume coins that were produced.
