

Type: [Wheat Penny](#)

Year: [1922](#)

Mint Mark: D

Value: As a rough estimate of this coins value you can assume this coin in average condition will be valued at somewhere around \$21, while one in mint state (MS) condition could bring \$5,000 at auction if certified. This price does not reference any standard coin grading scale. So when we say average, we mean worn as would be expected from a coin in this age, and mint state meaning MS+ grade and certified*.

Face Value: 0.01 USD

Total Produced: 7,160,000 **

Silver Content: 0%

Extra Info: A no D and Weak D is known to have been minted, but if you are a buyer or an owner you may want to get it verified by a 3rd party. The no D coins are selling for up to \$33,000 each. Id hate to waste that kind of money on a fake :)
