

Type: [Minnesota State Quarter](#)

Value: As a rough estimate of this coins value you can assume this coin in average condition will be valued at somewhere around 25 cents, while one in mint state (MS) condition could bring \$1 at auction if certified. This price does not reference any standard coin grading scale. So when we say average, we mean worn as would be expected from a coin in this age, and mint state meaning MS+ grade and certified*.

Extra Info: The quarter for Minnesota was released in April 2005 and has a common loon (looks like a duck to me) and a group of people on a small boat fishing. The words Land of 10,000 lakes is also engraved. This coin was also created by Charles Vickers. All the state quarters have the words E Pluribus Unum on the reverse bottom middle.
