**Extra Info:** There were just a few of the 1944 Steel Pennies ever minted and all would have been released by error into the coin supply. Coin analyst are suggesting that steel plates may have been tested or left mixed amongst the other copper metals and thus the error. No matter what the cause these coins are selling for just under \$100,000 dollars according to our resources. Make sure the coin you have or are buying is not a zinc coated copper

penny ripoff.
