

Type: [Roosevelt Dime](#)

Year: [1967](#)

Mint Mark: No mint mark

Value: As a rough estimate of this coins value you can assume this coin in average condition will be valued at somewhere around 10 cents, while one in mint state (MS) condition could bring \$7 at auction if certified. This price does not reference any standard coin grading scale. So when we say average, we mean worn as would be expected from a coin in this age, and mint state meaning MS+ grade and certified*.

Face Value: 0.10 USD

Total Produced: 2,244,007,000 **

Silver Content: 0%

Extra Info: Coins issued this year have no silver content making them valuable to collectors only. The melt value of a copper-nickel blend dime is just 2 cents. About \$2.98 less than the value of a silver dime, at the time we are writing this.

Full Bands (FB) or Full Torch (FT) is the gold standard for the 1989 Dime. On the reverse look at the torch and see if it has all of the

bands. Having this feature alone will add an additional 15-35% to the value of your coin.

What Are Full Bands on a Dime?
